Activity Based Costing

Activity Based Costing (ABC) is a costing method that assigns overhead costs to products based on the activities they consume. It was developed in the 1980s by Robert Kaplan and Robin Cooper at Harvard University. ABC is a more accurate method of cost allocation than traditional costing methods.

Activity Based Costing (ABC) vs. Activity Based Management (ABM)

What is absorption costing? Absorption costing means that all of the manufacturing costs are absorbed by the units produced. In other words, the cost of a finished unit in inventory will include direct materials, direct labor, and both variable and fixed manufacturing overhead. As a result, absorption costing is also referred to as full costing or the full absorption method.
