Alfred Marshall and Neoclassicism (Audiobook) by Robert

Alfred Marshall, FBA (26 July 1842 – 13 July 1924) was one of the most influential economists of his time. His book, *Principles of Economics* (1890), was the dominant economic textbook in England for many years. It brings the ideas of supply and demand, marginal utility, and costs of production into a coherent whole. He is known as one of the founders of neoclassical economics.

Alfred Marshall & Neoclassicism by Dr. Robert Hu00e9bert

Alfred Marshall was one of the most important economists shaping the field as we practice it today. By synthesizing the classical economics focus on production and costs with the new marginal utility theory of value and the concept of subjective utility, Marshall created the neoclassical synthesis.
