Political psychology is an interdisciplinary academic field dedicated to understanding politics, politicians and political behavior from a psychological perspective. The relationship between politics and psychology is considered bi-directional, with psychology being used as a lens for understanding politics and politics being used as a lens for understanding psychology.

Plot introduction. The book is divided into four sections, each organized year by year to describe a key period of Leo Africanus's life, and each named after the city that played the major role in his life at the time: Granada, Fez, Cairo, and Rome. While filled with biographical hypotheses and historical speculations, the book offers a vivid description of the Renaissance world, with the ...
