(note that because the colon character is not found in the last line the entire line is shown) . Option -d specified a single character delimiter (in the example above it is a colon) which serves as field separator. Option -f which specifies range of fields included in the output (here fields range from five till the end). Option -d presupposes usage of option -f.

I t's been a hectic week and I haven't got as much done as I wanted (in the way of craft!). I thought I would get these paper gem templates up and then maybe you could make something with them if you fancied? I had lots of really great suggestions as to what to do with them so thanks for the input (see comments section in previous post).
