

designed polymers by carbocationic pdf

Living polymerization: A chain polymerization from which chain transfer and chain termination are absent. Note: In many cases, the rate of chain initiation is fast compared with the rate of chain propagation, so that the number of kinetic-chain carriers is essentially constant throughout the polymerization.

Living polymerization - Wikipedia

1.. IntroductionThe discovery of living anionic polymerization by Michael Szwarc had a tremendous effect on polymer science , .His work facilitated major developments in both synthetic polymer chemistry and polymer physics as it opened an avenue to the production of well-defined polymers with precisely designed molecular architectures and nano-structured morphologies , , , , , , , .
