Medical diagnosis (abbreviated Dx or D S) is the process of determining which disease or condition explains a person's symptoms and signs. It is most often referred to as diagnosis with the medical context being implicit. The information required for diagnosis is typically collected from a history and physical examination of the person seeking medical care. . Often, one or more diagnostic ...

Medical diagnosis - Wikipedia

Granulomatous lung diseases are a heterogeneous group of disorders that have a wide spectrum of pathologies with variable clinical manifestations and outcomes. Precise clinical evaluation, laboratory testing, pulmonary function testing, radiological imaging including high-resolution computed tomography and often histopathological assessment contribute to make a confident diagnosis of ...

Diagnosis and Management of Q Fever – United States, 2013

Leukoplakia could be classified as mucosal disease, and also as a premalignant condition. Although the white color in leukoplakia is a result of hyperkeratosis (or acanthosis), similarly appearing white lesions that are caused by reactive keratosis (smoker's keratosis or frictional keratoses e.g. morsicatio buccarum) are not considered to be leukoplakias.

Leukoplakia - Wikipedia

Diagnosis During diagnosis, always verify the customer complaint. If the verification includes a test drive, be sure to check the level of ATF first.

TOYOTA ELECTRONIC TRANSMISSION CHECKS & DIAGNOSIS Checks

Attention should be given not only to the primary features of the skin condition (eg distribution, size, shape, border configuration, colour, presentation as macules, papules, vesicles), but also to any secondary changes that may be present (eg erosions, excoriations, lichenification).
