Each work often conveys a tone of arrogance. The titles themselves suggest this mood, with their flaunting of "dissent." Doubtless every author represented could cite some wrongheaded interpretation from which he differs, but the accumulations swept up by Bernstein and Young rank well below revelation as additions to man's wisdom.

dissent judges dissent much less frequently than they would in the absence of this relationship. In particular, judges on mixed panels almost never dissent from majority-inconsistent decisions. This, in turn, has implications for the value that dissent has as a signal to the entire circuit that review of a panel's decision may be warranted.

The research on diversity and the expression of dissent is consistent with research probing the effects of minority dissent. For example, Dooley and Fryxell (1999) observed that, provided loyalty and competence within teams, dissent was associated with higher decision quality in strategic decision-making teams in U.S. hospitals.
