Calculus (from Latin calculus, literally 'small pebble', used for counting and calculations, as on an abacus) is the mathematical study of continuous change, in the same way that geometry is the study of shape and algebra is the study of generalizations of arithmetic operations.. It has two major branches, differential calculus (concerning instantaneous rates of change and slopes of curves ...

Welcome to my math notes site. Contained in this site are the notes (free and downloadable) that I use to teach Algebra, Calculus (I, II and III) as well as Differential Equations at Lamar University. The notes contain the usual topics that are taught in those courses as well as a few extra topics that I decided to include just because I wanted to.

Governance and Finance. The schools are remarkably varied when it comes to history, mission, structure, and organizational arrangements. The oldest among them—New York’s Townsend Harris High School, Boston Latin School—have been around in one form or another for centuries, while half the schools for which we have such information are creations of the past two decades.
